

Understanding the HCSP-Presales Certification

The **HCSP-Presales-Campus Network Planning and Design V1.0** certification is essential for professionals looking to excel in *IT network solutions*. Achieving this certification can set you apart in the competitive tech landscape. For more information, visit the [certification page](#).

Why Pursue Campus Network Design Knowledge?

Campus network design is a critical aspect of establishing effective *IT infrastructure*. This knowledge empowers you to create networks that efficiently support business operations and enhance user experiences. Here's why it's valuable:

- **Improved network performance.**
- **Enhanced security measures.**
- **Cost efficiency** in operations.

Benefits of Network Planning Certification

Obtaining a network planning certification not only validates your skills but also opens doors to numerous job opportunities. Employers prefer certified professionals for key roles in their organizations. For details on exam strategies, refer to the [resource link](#).

Why Huawei Certification Matters

Huawei is recognized globally for its robust networking solutions. A certification from Huawei signifies that you possess the knowledge and skills required to tackle modern networking challenges effectively.

Getting Started with IT Network Solutions

Understanding *IT network solutions* is crucial for anyone aiming to work in this field. Here are

some starting points:

- Familiarize yourself with *networking protocols*.
- Learn about *hardware components* such as routers and switches.
- Stay updated with the latest *networking trends*.

Enrolling in Presales Engineer Training

Presales engineer training focuses on providing the skills needed to support customers during their decision-making process. This training helps you understand customer needs and showcase solutions effectively. Here's how to find the right program:

- Look for **accredited training centers**.
- Check for **hands-on training opportunities**.
- Read reviews from past students.

Creating a Study Plan

A solid study plan is essential for success in your exam preparation. Here's a simple guide to help you create one:

- Assess your current *knowledge level*.
- Set realistic goals and timelines.
- Use a variety of *study materials*, including books and online resources.

Practice Makes Perfect

Practicing through *mock exams* and quizzes can significantly boost your confidence. Consider joining *study groups* or online forums where you can share knowledge and resources with others preparing for the same certification.

Exam Day Tips

As the exam day approaches, remember these tips:

- Get a good night's sleep before the exam.
- Arrive early to the exam location to reduce anxiety.
- Read each question carefully before answering.

Conclusion

Preparing for the **HCSP-Presales-Campus Network Planning and Design V1.0** exam can be a fulfilling journey. With the right resources, dedication, and a solid study plan, you can achieve success. **Good luck!** Â© 2025

Real Exam Questions 2025

Below given questions are for demo purposes only. **The full version** is up-to-date and contains actual questions and answers.

Why Choose CertKillers?

Actual Exam Questions: We provide real exam questions updated regularly.

Exam Dumps: Downloadable PDFs with comprehensive questions and answers.

Weekly Live updates: Study Material questions and answers – Live updates.

Practice Tests: Practice tests and VCE PDF to assess your readiness.

Multi-Lingual Support: Full Version products available for download in all popular languages.

Success Guarantee: Pass your exam on the first attempt or get a refund.

Up-To-Date Test Questions: Up-to-Date Test Prep Questions that cover 2025 syllabus.

Instant Download: Instant download after successful payment.

H19-424_V1.0 Exam

HCSP-Presales-Campus Network Planning and Design V1.0

Thank you for Downloading H19-424_V1.0 exam PDF Demo

You can Buy Latest H19-424_V1.0 Full Version Download

https://www.certkillers.net/Exam/H19-424_V1.0

Version: 4.0

Question: 1

What is the detection technology used for TEHSB and VPNFRR protection solutions in the SDN-WAN solution?

- A. Ethoam
- B. BFD
- C. Y1731
- D. NQA

Answer: B

Question: 2

The description of the new AirEngine 5762-16W is incorrect ()

- A. Super wall penetration, one AP covers up to four rooms
- B. Unique built-in butterfly wing intelligent antenna
- C. USB expansion of external Internet of Things
- D. Dedicated to multi-partition scenarios in dormitories and hotels

Answer: A

Question: 3

WLANR22 Spruce version, the description of the dual-machine hot standby feature is wrong ()

- A. The HRP backup tunnel replaces the original V5HSB backup tunnel, supports multiple HRP tunnels, and the HRP multi-tunnel is redundant and highly reliable: supports configuration synchronization.
- B. HRP supports fast switching to detect heartbeat vlanif down and achieve second-level switching.
- C. HRP independently completes the active/standby state negotiation, and the HRP protocol forwarding plane is unloaded with high-priority protection to prevent the active/standby state oscillation in overload conditions.
- D. Tunnel-level security encryption, support AES256 tunnel encryption, business data does not need to be encrypted by yourself.

Answer: A

Question: 4

In the V200R022 version of the S switch, the description of the S5X31(S)-S multi-rate switch is wrong ()

- A. Support 2G large cache to cope with high burst business traffic.
- B. It can be used as a remote module for the central switch to achieve simplified networking.
- C. It supports advanced features such as VxLAN and MPLS, real-time telemetry data collection, and network O&M visualization, which can be widely used in scenarios such as medium-sized campus aggregation and small campus cores.
- D. 3 power supply design, support N+1 redundancy, full 802.3bt90W PoE++ power supply for all ports, and the maximum PoE output power of the whole machine can reach 2268W, adapting to the power supply needs of massive terminals.

Answer: A

Question: 5

The description of the CloudEngine S8700 switch is incorrect.

- A. Provide 3 product forms: 4 slots, 6 slots and 10 slots.
- B. CloudEngine S8700 is a spruce type device.
- C. It has ultra-high-density GE/10GE/25GE/40GE/100GE full-rate access ports, and has a variety of port types.
- D. Adopt distributed forwarding architecture

Answer: D
